

Energy & Data Transmission Systems
Compressed Air Supply Systems
for Conveyors and Ergonomic Workplaces

Conductix-Wampfler, part of Delachaux Group, is the **world leader in the design and manufacture of efficient energy and data transmission systems** for all types of mobile equipment and machinery.

Our mission is to keep our customers' business moving!

We have focused on the field of **mobile electrification systems since 1902**. During the last century, our group has continuously developed innovative conductive and inductive energy and data transmission solutions for industrial customers around the globe. **Our dedicated electrification solutions help to keep their operations up and running 24 / 7 – 365 days per year.**

With own sales organizations and partners, Conductix-Wampfler is **present in over 50 countries worldwide**. Specialized "Centers of Excellence" and production sites in the key industrial regions support our global activities. With a combination of our comprehensive global network and our local sales and engineering teams, we are able to handle large-scale, international projects, always supported by face-to-face local contact.

Compressed Air and Electric Supply Systems for Ergonomic Workstations

- Combined profiles for load suspension and compressed air supply
- Different rails profiles to fit the requirements
- Unique automatic tapping valve solution
- Complete range of accessories for ergonomic workstations

Besta^oPower

Assembly line with Besta-Power A62 + A180

Assembly line with Besta-Power W^F-traxX

Jib boom, Equipment carrier, Balancers + Retractors

Electrified Monorail Systems with Conductor Rails

Skillet Systems with Inductive Power Transfer IPT[®]-Rail

Automated Guided Vehicles with Inductive Power Transfer IPT[®]-Floor

Energy & Data Transmission Systems for Conveyors

- Easy to install conductor rails systems
- Flexible configuration of conductor rails
- Maintenance free inductive power transfer IPT[®]
- Compact and powerful solution for flexible AGV systems
